Strong: JavaScript (ES5/ES6+), HTML5, CSS3 (SASS), Flexbox, jQuery, React, Node.js, OOP, Express JS

Experienced: Webpack.js, JSON, APIs (AJAX/Fetch), Bootstrap 4, PostgreSQL, React Router, React Context

Tools: Chrome Dev Tools, Git, GitHub, VS Code, Figma, MeisterTask, npm, AWS, Adobe Creative Suite, HTTPie

Applications Developed / Volunteer Work

Wemunity.org - [Live](#) | [GitHub](#)

An open source system connecting recovered, immune COVID-19 patients to volunteer opportunities in their local communities

- Built a **mobile responsive** navigation bar and press page with **React** and **SASS**, using tools such as **Slack** and **Adobe XD** to collaborate with international UI and Engineering teams
- Optimized the **schema** for the press page to allow data to be submitted to **Sanity CMS**, pulled to the website and displayed to end users

Wicked Vinyl Mock E-Commerce Site - [Live](#) | [GitHub](#)

A full stack mock e-commerce site that showcases a personal selection of vinyl, turntables and music accessories

- Developed a database and server using **PostgreSQL**, **Node.js** and **Express.js** for the product information
- Designed the frontend using **React**, **CSS3** and **Bootstrap 4** while using the **Fetch API** to talk with the backend to retrieve the necessary information that the user requests
- Enabled **sessions** and **cookies** to be stored in order for different customers to keep track of items in their cart and pick up where they left off easily

ShadowRealmer.com - [Live](#) | [GitHub](#) | [Figma](#)

A full stack web app for trading card game fans to find store events and meet up with other fans to play together

- Materialized the appearance and functionality of the app using **React**, **CSS3** and the **Google Maps API**
- Optimized the app's background practicality using both **React Router** and **React Context**
- Collaborated in a team of four to design, implement and launch the frontend and backend in 14 days

Work Experience

Apple Inc.

October 2016 - June 2019

Genius | Technical Expert | Technical Specialist

- Diagnosed hardware, software and environmental issues on mobile and computer devices for ~400 customers per month, earning Top Genius status with the highest performance satisfaction score
- Repaired ~600 devices per month using internal Apple diagnostic suites and hardware tools, ensuring reported issues were resolved in a timely manner and to the customers' expectations
- Led and trained technicians in difficult technical, internal and customer service situations to strengthen their understanding and skills to ensure a great experience for both employees and customers

Education

LearningFuze

Accelerated Web Development Program

Saddleback Community College

Associate of Arts in Liberal Studies (AA)

University of California: Santa Barbara (UCSB)

Physics

Hobbies

Running – Enthusiastic runner from Division I collegiate athletics to the 2019 Boston Marathon

Traveling – Recently traveled the world for four months, exploring countries in Southeast Asia and Europe

Music – Love to listen to music (rock, hip-hop and electronic), going to concerts and discovering new artists
